

INTI International College Penang

Program: BCSCUN (CS2)

School: SOC

Subject Code & Title: MPU3253 Design Thinking

Semester: 1 / 2 / 3 / 4 / 5 / 6 / 7

Session: Jan / **Apr** / Aug

Year: 2025

Assignment Method: Lab / Project / **Report** / Written Work / Others

Assignment Title: Mentor's Evaluation (10%): Meeting Minutes & BMC (old & new)

Assignment Distributed: 15 April 2025

Date of Submission: **20 June 2025**

Instructor: MR. KHOR KOK CHIN

Declaration:

I certify that this assignment is my own work. Where material has been used from other sources it has been properly acknowledged.

Student's Name:

1. Chew Zhi Boon
2. Shi JiaBei
3. Saw Koon Sheng
4. Ng Zhi Yang
5. Damion Sim Jian Liang
6. Tan Yi Sheng
7. Cheah Kok Ming
8. Manindra Nair
9. Yong Cheng Shen

Signed: 1. *Chew*

2. *Shi*

3. *Saw*

4. *ng*

5. *Damion*

6. *Tan*

7. *Cheah*

8. *Manindra*

Assessor's Feedback:

Date of Discussion if any:

Mentor Feedback (10%)

This form is for the mentor to give feedback on the mentees' performance. Your mentees will present this form to you at your first meeting, and they will collect it back after the final mentoring session. Please provide your feedback based on the rubrics below. Thank you very much.

Mentor Name:

Section: CS2

Group Name:

Name of the Product / Service:

Design Challenge:

Mentees	Name	Remark on individual students (if any)
Leader:		
2		
3		
4		
5		
6		
7		
8		
9		

Criteria	Score Range (%)					Total
	0 (Poor)	0.5 (Weak)	1 (Average)	1.5 (Good)	2 (Excellent)	
Meeting & Communication	Never saw any members of the group.	Attended only 1 meeting but no further follow-up.	Attended only 1 meeting; communicated via emails, skype or chat group.	Attended 2 meetings; communicated and followed-up via emails, skype or chat group.	Met more than 2 times; communicated and followed-up via emails, skype or chat group.	
Deadlines / Targets	Missed all deadlines. Incomplete tasks.	Missed 2 or more deadlines. Tasks completed inadequately.	Missed 1-2 deadlines with partial completion of tasks.	No more than 1 deadline missed but tasks completed.	No deadlines missed. Completed all tasks assigned.	
Preparation	There is no effort / preparation put into project.	Mentees did not put in sufficient effort to complete the project.	Mentees put in some time and effort but not enough to be satisfactory.	Mentees put in adequate effort to complete the project.	Mentees put in tremendous effort to create an exemplary project.	
Initiative	Mentees did not perform any of the tasks given.	Mentees were unable to perform most of the given tasks.	Mentees performed some given tasks; required substantial guidance.	Mentees performed all given tasks with some guidance.	Mentees performed all given tasks independently; minimal guidance needed.	
Critical / Creative Thinking	No analysis done on problem. Unable to come up with solution.	Mentees had difficulty to analyze problems. Unable to come up with solution.	Mentees had difficulty to analyze problems. Difficulty to come up with solution.	Mentees were able to analyze problems or situations from a fresh perspective. Somewhat able to connect ideas to conceive a solution.	Mentees were able to analyze problems or situations from a fresh perspective and able to connect ideas to conceive innovative solutions.	
Grand Total						

Overall Comments (please highlight the absentees in each meeting):

Table of Content

No	Items	Pages
1	Meeting Minutes 1	1-2
2	Meeting Minutes 2	3-4

Meeting Minutes (1)	
Date	25 May 2026
Time	3:00pm - 3:30pm
Venue	Online Team Meeting
Attendees	1.Chew Zhi Boon 2.Shi JiaBei 3.Saw Koon Sheng 4. Ng Zhi Yang 5. Damion Sim Jian Liang 6.Tan Yi Sheng 7.Cheah Kok Ming 8.Yong Cheng Shen 9. Manindra Nair

No	Items Discussed	Action Items
1	The team discussed that the current proposed solution did not fully match the expected solution or requirements given.	Review the problem statement and solution again to ensure the proposed solution is clearly linked to the given requirements.
2	The team discussed ways to improve the presentation. It was agreed that not every member needs to explain the slides. A few members can present the main slides, while the others can focus on answering questions during the Q&A session.	Assign presentation roles clearly: selected members will explain the slides, and other members will prepare to answer possible questions.
3	The team discussed the need to prepare the Business Model Canvas for the project.	Start preparing the Business Model Canvas, including key sections such as customer segments, value proposition,

		revenue streams, and key activities.

Meeting Minutes (2)	
Date	8 June 2026
Time	3:00pm - 3:30pm
Venue	Online Team Meeting
Attendees	1. Chew Zhi Boon 2. Shi JiaBei 3. Saw Koon Sheng 4. Ng Zhi Yang 5. Damion Sim Jian Liang 6. Tan Yi Sheng 7. Cheah Kok Ming 8. Manindra Nair 9. Yong Cheng Shen

No	Items Discussed	Action Items
1	The team mainly focused on improving the Business Model Canvas diagram.	Update and refine the Business Model Canvas diagram based on the discussion.

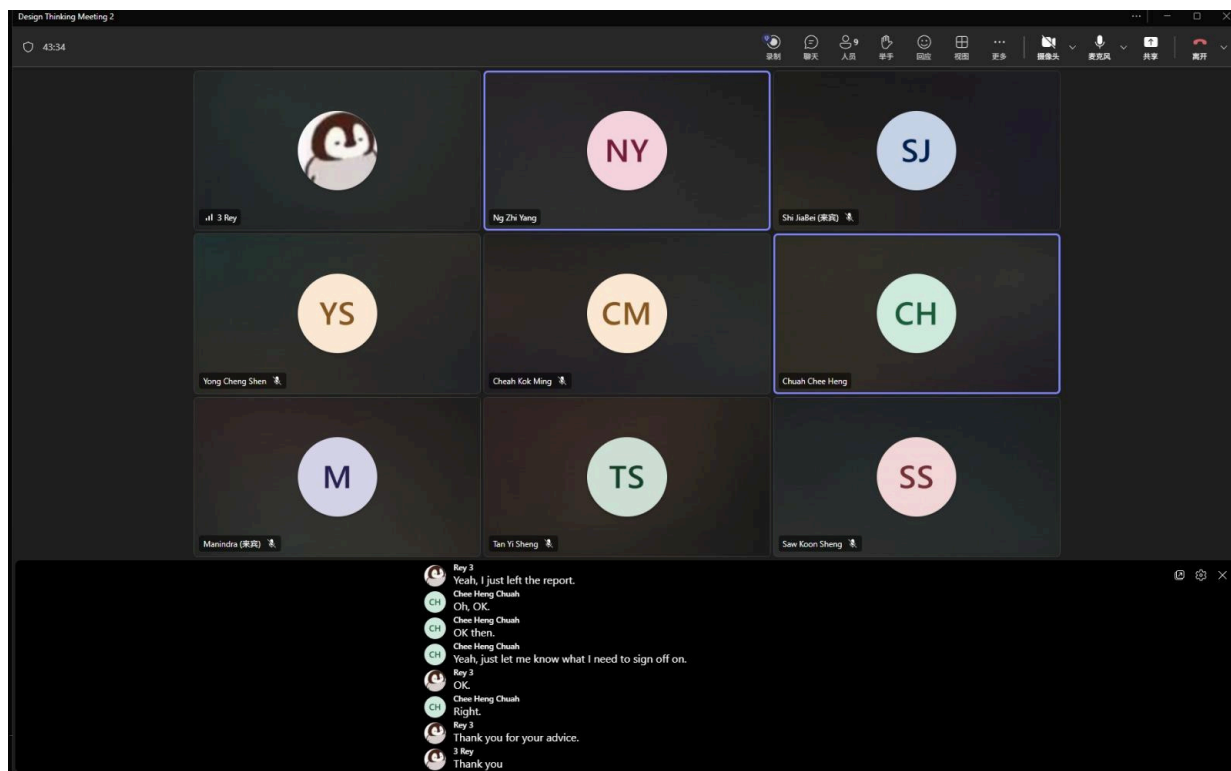

2	The team discussed the revenue section and considered how the project can generate income or value.	Improve the revenue streams section and ensure it is realistic and clearly explained.
3	The team discussed the customer segments and identified the groups of users or stakeholders who may benefit from the solution.	Clearly define the main focus area of the project and link it with the problem statement.

Old Business Model Canvas

Business Model Canvas		Designed for: SDG 14: Life Below Water	Designed by: Group: Five	Date: 08/6/2026	Version: 1
Key Partners • NGOs — Greener is Cleaner, Fauna & Flora • Government • IoT hardware suppliers (sensors, solar, LoRa) • Cloud providers (AWS / Azure) • Schools & community groups	Key Activities • Deploy & maintain smart water buoys • Operate cloud dashboard & alerts • Maintain & calibrate sensors • Run awareness campaign (posters, social, schools) • Analyse data & report	Value Propositions • Real-time ocean pollution detection — act in minutes, not days. • For authorities — live data to enforce regulations • For NGOs — open data to drive campaigns • For the public — see ocean health, understand impact	Customer Relationships • Mobile alerts & push notifications • Social media campaigns & shareable content • School partnerships (long-term) • Open data — public can see live reading	Customer Segments • PRIMARY Government environmental agencies, marine parks • SECONDARY Conservation NGOs • TERTIARY Schools & universities • PUBLIC Coastal communities & eco-conscious citizens	
	Key Resources • Buoy hardware (IP & prototype) • Cloud dashboard platform • Team — design, IoT, marketing • NGO & academic partnerships • Awareness content & posters		Channels • Cloud dashboard (web & mobile) • Mobile app / alert notifications • NGO & government partner networks		
Cost Structure • Buoy hardware & sensors • Solar & wireless components • Cloud hosting & data infrastructure • Deployment & maintenance • Research & surveys		Revenue Streams • Government / public sector grants • NGO & conservation funding • University / academic partnerships • Data licensing to researchers • CSR sponsorships from corporates			

New Business Model Canvas

Business Model Canvas		Designed for:	Designed by:	Date:	Version:
		Saving Our Oceans — Water Quality Management System (SDG 14)	Group Five INTI International College Penang	June 2026	1.0
Key Partners - Environmental NGOs — Greener is Cleaner (community clean-ups & education), Fauna & Flora International (marine conservation) - Government bodies — Dept. of Environment, maritime & fisheries authorities - Schools & universities for awareness programs - IoT sensor & hardware suppliers - Cloud platform & telecom providers (LoRa / 4G) - Marine research institutions & scientists - Media & social media partners for campaign reach	Key Activities - Deploy & maintain smart water-quality monitoring buoys - Real-time data collection & cloud analysis - Automatic pollution alerts to authorities & NGOs - Awareness campaigns — posters, social media, school programs - Community surveys & engagement - R&D, prototyping & sensor calibration	Value Propositions - Proactive, real-time detection of ocean pollution — not reactive clean-up after damage is done - Faster response within minutes → less harm to coral reefs, marine life & food chain - Open, live data the public can see, feel and act on - Turns readings into stories that change everyday waste habits - Solar-powered, off-grid, continuous 24/7 monitoring - Directly supports SDG 14 — Life Below Water	Customer Relationships - Open self-service data dashboard - Mobile alerts & push notifications - School programs & community clean-up events - Social media engagement & shareable campaigns - Long-term collaboration with NGOs & authorities	Customer Segments - General public — everyday consumers whose disposal habits affect the ocean - Government environmental agencies & local councils - Environmental NGOs & conservation groups - Schools & educational institutions - Researchers & marine scientists - Coastal communities, fisheries & tourism operators	
	Key Resources - Smart buoy prototype — solar-powered, 5 sensors (pH, turbidity, temp, DO, conductivity) - Cloud dashboard & real-time data platform - Wireless telemetry network (LoRa / 4G / Wi-Fi) - Technical team & student volunteers - Research data (survey + secondary research) - Campaign materials — poster & digital content		Channels - Cloud dashboard & mobile app alerts - Social media campaigns - Schools & community outreach programs - Campaign poster — print & shareable digital - NGO & government partner networks - Public events & exhibitions		
Cost Structure - Buoy hardware — sensors, solar panels, casing & materials - Manufacturing, deployment & at-sea maintenance - Cloud hosting, data storage & connectivity fees - R&D, prototyping & testing - Awareness campaign & education materials - Operations, training & volunteer coordination			Revenue Streams - Government grants & environmental funding - NGO partnerships & corporate CSR sponsorships - Data-as-a-service subscriptions for agencies & researchers - Public donations & crowdfunding - Educational workshops & awareness merchandise
